## **Zebra Technologies and MultiSystems present innovative services and solutions' at Interphex**

*A wide variety of printing applications, label process and control systems will be featured during Interphex at the MultiSystems booth: #920.*

**San Juan, Puerto Rico, January 28, 2009** – Zebra Technologies Corporation (NASDAQ: ZBRA), a global leader in delivering on-demand specialty printing and automatic identification solutions, with its local distributor and partner **MultiSystems**, announced today their participation in **Interphex 2009** and provided information about their new product and service offerings which will be exhibited during the most important and relevant event in the pharmaceutical industry, to be held on January 29 and 30, 2009 at the Puerto Rico Convention Center.

Zebra and MultiSystems will feature a large variety of specialty printing products and automatic identification solutions of the Zebra brand, aimed particularly to the manufacturing and pharmaceutical industries in Puerto Rico. Among the selection of products that will be exhibited are: high performance printers such as the XiIII Plus series, RFID printers and encoders, the 110 PAX 4, a print engine that adapts to automatic applicators used in production lines, the new mobile P4T printer and Midrange printers, among others. These equipments are designed for sophisticated printing applications used in industrial service. Logically, each printer or encoder has its specific benefits that adapt, depending on the demand and need of the task, in the production line of a product or any other area that contributes to enhance productivity and business efficiency.

*“The main advantage we provide at MultiSystems is that we have the capacity or flexibility to create solutions that adapt easily to the particular needs of each client in the industry they are in”, said Radamés del Mazo, Vice President of MultiSystems. “With over 20 years of experience in the market, we have identified opportunity areas, and automation of Label Process and Control Systems are definitely one of them. Our team of experts and the high quality of the products we offer, such as the Zebra brand products, allow us to provide an excellent service to each of our clients”, concluded del Mazo.*
